Sign Assemblywoman Solages' Petition for a Community Center in Elmont

Join Assemblywoman Michaele Solages and Sign the Petition for a Community Center in Elmont.

How can you help?

We urge you to support this vital cause by adding your signature to the petition calling for the immediate construction of a community center in Elmont. Your voice matters and together we can significantly impact the future of our town.

Join in and support our efforts to advocate for a community center! Please share with a neighbor!

We invite community members, local businesses, and organizations to get involved in this transformative project. If you have skills, resources, or ideas to contribute, please call our office at 516-599-2972 or email district22@nyassembly.gov. Thank you for your ongoing support, and we can't wait to see the positive impact this community center will have on our community.

How will a community center impact Elmont?

Unity and Connection: A community center will serve as a central hub, bringing residents together for events, activities, and shared experiences. It will strengthen our sense of community and foster lasting connections.

Educational Opportunities: The center will provide educational resources, workshops, and programs for all ages, enhancing the learning experience for our children and offering valuable opportunities for lifelong learning.

Health and Wellness: A community center will promote a healthy lifestyle by offering fitness programs, recreational activities, and wellness initiatives catering to our residents' diverse needs.

Cultural Enrichment: The center will help us celebrate our rich cultural diversity by providing a space for cultural events, exhibitions, and performances that showcase the talent and traditions within our community.

Dear New York Arena Partners and Empire State Development,

We, the undersigned residents and concerned community members, come together to express our strong support and earnest request for a community center in the development plans negotiated by New York Arena Partners (NYAP) and Empire State Development (ESD). As stakeholders in our vibrant community, we can no longer wait.

We understand that the development plans are currently under consideration, and we urge NYAP and ESD to prioritize the community's well-being and not delay the construction or siting of the community center.

By signing below, we lend our voices to this collective plea, emphasizing the importance of building a community center that will complement the envisioned development, and contribute significantly to our neighborhood's social and cultural fabric.

Thank you for your attention to this matter. We look forward to witnessing a collaborative effort that reflects the true spirit of community building.

Sincerely,

Dear Neighbor,

A community center serves as the heartbeat of any town—fostering unity, delivering essential services, and creating a hub for residents to gather. Your support is crucial in turning this vision into a reality for Elmont. We've launched a petition to showcase the overwhelming demand and necessity for a community center in our town.

In 2018, Empire State Development (ESD) selected New York Arena Partners (NYAP) through a competitive Request for Proposals process to redevelop surplus formerly state-owned land adjacent to the Belmont Park thoroughbred horse racing facility in Elmont, New York. NYAP is a partnership between Oak View Group, the New York Islanders, and Sterling Project Development and was designated to lead the redevelopment of Belmont Park.

Due to our advocacy, a part of the community benefits agreement required NYAP to secure and build a facility of up to 10,000 square feet within the unincorporated hamlet of Elmont to serve as a community center. The site would be leased to an operator at no cost for up to 10 years, with an option to extend.

Join me and other community leaders in pushing ESD and NYAP to take quick action for Elmont!

Together, let's make this dream come true for Elmont.

Sincerely,

Hon. Michaele C. Solages
Assemblywoman District 22
