Weekly Report from Assemblyman Charles D. Fall

May 8, 2020

Happy Mother's Day weekend to all the mothers, grandmothers, aunts, and mother figures in our lives. This Mother's Day will be unique and may require a pause on our cherished family traditions, but there are so many wonderful ways to show that special person in your life that you love and appreciate them. Showing them how much you care may include staying away and relying on a virtual call or sending a gift and thoughtful card this Mother's Day. My thoughts and prayers are with everyone who has lost a special woman in their life due to the coronavirus or a different circumstance.

Thank you to all the wonderful women working in our essential businesses and on the frontline, making the ultimate sacrifice. You are what keeps our community strong.

Updates From Albany

What Measures did the State Legislature Include in the 2020-21 State Budget to Combat Hate Crimes Based on Religion, Gender, Ethnicity, and Sexual Orientation?

This year's budget includes:

The 'Josef Neumann Hate Crimes Domestic Terrorism Act', named in memory of Rabbi Josef Neumann, who died after being stabbed at a synagogue in Monsey, NY during Hanukkah in 2019. This act defines hate-fueled murder, with the intent to cause mass casualties, as an act of domestic terrorism with penalties equivalent to other acts of terrorism.

- The budget language establishes a "domestic act of terrorism motivated by hate" crime as a new A-1 class felony punishable by up to life in prison without parole.

Additionally, contained in the budget was **funding for the State Police Hate Crimes Task Force.**

- The State Police Hate Crimes Task Force was established by Governor Cuomo in 2018 to address the increase in bias-motivated threats, harassment, and violence throughout NYS.
- The enacted budget also includes \$2 million to support the Task Force's ongoing work to bolster the monitoring of digital media which promotes violence, intolerance, selling of illicit substances, and terrorism.

When it comes to hate crimes and the safety of our diverse population here in New York, the legislature is making strides to advance laws that will prevent and denounce such heinous acts. A deliberate attack on any community is a frightening threat to the safety of overall community unity. While I am proud to support and vote for the aforementioned policies, it is very disturbing that issues of discrimination, hate, and xenophobia continue to plague our communities. My colleagues in the NYS legislature and I will always institute severe consequences to condemn and combat such horrific behavior.

Calling on the City of New York to Prioritize Summer Youth Employment and Community Schools Over Campaign Finance

In April, the NYC Department of Education reported an approximate \$264 million budget cut due to the COVID-19 pandemic. The biggest cut is estimated to take effect next year when \$100 million will be taken from the Fair Student Funding formula, impacting thousands of North Shore students. An issue of immediate concern includes the cancelation of the Summer Youth Employment Program and the potential loss of 75,000 city-funded summer jobs for youth ages 14 to 24 years old.

Though I understand that difficult decisions must be made by the city administration during this challenging time, when we have to choose between using taxpayer dollars to fund political campaigns or funding programs to benefit our students and community, our youth should always be our priority. NYC campaign finance matters should be revisited at a later date when the economy is in a healthier place. For several months, many of us have been working from home, and our students have been learning virtually. I am confident that government and community organizers can work together to create outlets for our SYEP participants to successfully work from home and continue supporting students and families that rely on our community schools.

COVID-19 Weekly Update for the North Shore

The impact of COVID-19 evolves every day and new resources and guidelines are released weekly to best address the growing needs and demands of this outbreak. Each week, I utilize my Facebook Live to connect with constituents in real-time and to discuss the matters most important to you. This week I spoke about the concerns of the NYC budget cut proposals to the Summer Youth Employment Program and community schools; the state's moratorium on COVID-related residential or commercial evictions until August 20 and the banning of late payments or fees for missed rent payments; the specific NYS Department of

Health '[Protocols for Essential Personnel to return to Work Following COVID-19 Exposure or Infection](#)', and much more. [Click here to watch my latest post and join me each week on my Facebook page where you can ask me questions in real-time](#). Please reach out to my office if there is any information that you would like me to discuss with the community.

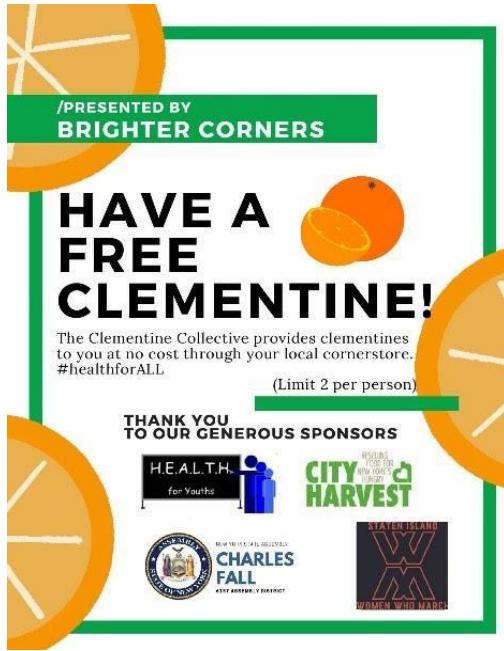

Positive Community Contributions

This week in positive community contributions, I want to highlight the Clementine Collective Project, a blooming initiative to deliver free fresh foods to corner stores in Staten Island. The project is a collaborative effort between Brighter Corners: a graduate student group from Columbia University, including a local Staten Islander, Columbia University and Staten Island community advocate Professor Heather Butts, local community advocate Sarah Blas, and Susan Fowler of City Harvest. With the assistance of the owner of the Jersey Corner Store located at 506 Richmond Terrace, these organizers successfully launched a 4-week pilot beginning April 19, 2020. Each week, hundreds of clementines are purchased from

Gerardi's Farmer Market & Nursery and brought to the Jersey Corner Store where they have been extremely well received by community members of all ages.

I am proud to be a sponsor of this program focused on fostering a greater appreciation for healthy foods and healthier eating habits among Staten Island youth.
