## District 61 News

### Honoring the Life and Legacy of the late Reverend Maggie M. Howard

On June 13, the North Shore and the larger Staten Island community said farewell to Reverend Maggie M. Howard, a beloved friend, community leader, and faith leader of the Stapleton Union American Methodist Episcopal (UAME) Church. Reverend Howard became a member of the UAME Church- one of the oldest African-American churches in the borough- in 1985 and she would be ordained in 1991. Rev. Howard began serving as Senior Pastor of this church in 2002. In this position, she would lead the church into practices to promote and uphold social justice, educate youth, feed and clothe people in need from all over the Island. She was a humanitarian who fostered community relationships and civic ties, assist the addicted and homeless and help move them into productive lives of dignity and hope. Rev. Howard further fostered UAME's reputation as the "church that helps".

Reverend Howard was named one of the 2020 Staten Island Advance Women of Achievement. I am honored to have put forth a petition to rename the Stapleton Park to "Reverend Maggie Howard Park". Within 30 hours, nearly 1000 community members have signed the petition, which is only a testament to the impact Reverend Howard left on the Staten Island community. **Please take a moment to sign on to this petition in her honor.**

### Congratulations to the Class of 2020

NYC public schools are officially out for the summer. The class of 2020 has persisted through the end of an unusual and difficult school year and I want to congratulate them for their amazing accomplishments. **Click here to view my graduation message to the class of 2020.**

Thank you to the wonderful and committed educators, school staff, and parents for guiding our youth through the end of the year. While there continues to be great uncertainty surrounding the fall school year, we will work together to organize the best resources and procedures to ensure the health and safety of our students and school staff.

Congratulations again to the undefeated class of 2020!

#### Updates From Albany

**Governor Cuomo announced this week that \$65 million in federal CARES Act funding is available for childcare providers statewide through the New York Forward Child Care Expansion Incentive program.**

The funding available includes:

- \$20 million to assist childcare programs to reopen and expand capacity by providing materials to support a more socially distant model, and for supplies and activities

associated with reopening and expansion. This may include partitions, short term rental of space, etc.

- \$45 million in childcare Reopening and Expansion Incentive funds to pay for 50% of the cost of a newly opened classroom (maximum grant amount of \$6,000) as an incentive to open the classroom. The temporary funds will phase out over the second and third months as more parents bring their children back into childcare.

Throughout the pandemic, 65% of the Office of Children and Family Services (OCFS)-licensed and -registered childcare programs remained open, many serving families of essential workers. The funding being made available will help to bring closed programs back to operation to serve families returning to the workplace.

- To be eligible for reopening funds, childcare programs must have either been closed as of June 15 and have a plan to reopen within two weeks of applying or currently operating below their licensed capacity and would like to expand. The grants will be pro-rated as programs reach capacity. Programs must submit a detailed plan for use of funds and must remain open at least through the end of the year.
- The maximum awards for the \$20 million in Reopening and Restructuring Incentives depend on the size of the program and range from \$300 to \$1,600 one-time grants. Childcare programs may apply to OCFS through July 15.

New York went from one of the highest infection rates in the country to one of the lowest because we continue to make difficult but data-driven decisions on reopening the state.

As we move further into the reopening and more parents go back to work, it is essential that childcare programs across the state have the support they need to reopen safely for both our children and staff.
