Aid to Dairy Farmers: When supply chains were disrupted due to the COVID-19 outbreak, we were there to help family farms get critical aid and products to reach consumers.

Called for Regional Reopenings: To make sure every NY business had a fair chance, I urged Gov. Cuomo to roll back restrictions in areas where COVID-19 was retreating.

Rebuilding Local Economies: Our Conference developed economic blueprints with targeted aid directed to the residents and small businesses who needed it most. (A.10266)

Nursing Home Accountability: To protect patients and properly prepare for future crises, I advocated for public hearings to review the state response to COVID-19 in adult care facilities.

Fought for High School Students & Families: Graduations are a life milestone that we all cherish. We helped lift restrictions & secure that chance for thousands of NY students.

Resuming Nursing Home & Group Home Visitations: As group home and nursing home residents were kept apart from their families for months, we fought to resume safe, socially-distanced visitation.
