# THREE IDEAS TO HELP UPSTATE NEW YORK IN 2023

## CREATE TAX RELIEF

Let's change the tax law to provide relief to hardworking New Yorkers. We can create savings on gas, housekeeping supplies, personal care products and groceries (A.8481).

## INCENTIVIZE FIRST RESPONDERS

Let's say thank you to and recruit new volunteer firefighters and ambulance workers with incentives such as increases to income tax deductions and provisions for municipal health insurance coverage to support upstate emergency services (A.5793).

## PROVIDE MORE JUDICIAL DISCRETION

Let's stay vigilant. I support any measure that will provide more judicial discretion to fix what's broken with bail reform (A.4964).

Let's work together! If you have ideas or questions about this or any state issue, please contact me:
