Assemblyman Magnarelli's 2023 Constituent Survey

- The Governor proposed a system of universal child care for infants through 3-year-olds making high-quality child care and early education either free or affordable to everyone. The program would cost about \$3 billion, but would allow people to work and be confident their children have reliable care. Would you support funding universal child care in New York State? Yes No
- Would you support a carbon tax on businesses that generate greenhouse gases to fund renewable energy projects across the state? Yes No
- The proposed "Elder Parole" bill would grant the opportunity for parole to all incarcerated persons who reach age 55 and served at least 15 years of their sentence regardless of their original crime or length of sentence. It does not mandate that parole be granted. Do you support the "Elder Parole" bill? Yes No
- During the COVID-19 pandemic, a federal policy ensured every student in the nation had access to free school meals – however, this program ended and 726,000 students across New York lost access to free school meals. The estimated cost of providing all students statewide free meals (breakfast and lunch), regardless of income level would be around \$200 million. Do you support this program? Yes No
- Do you believe that minimum wage should be adjusted to keep pace with inflation? Yes No
- Group homes, long-term care facilities, and nursing homes are struggling to find and keep staff, many of whom are paid for by Medicaid. Medicaid rates have not increased in New York State in 12 years. Should New York raise Medicaid rates? Yes No
- The NY Climate Action Council recommends banning the sale of new fossil fuel powered home heating systems beginning in 2030 and requiring new replacement systems be "carbon-free." Do you support this proposal? Yes No
If no, what year should this mandate go into place?
 2040 2050 Never
- "Complete Streets" are features in road design/construction that make travel easier/safer for bikes and pedestrians and work to slowdown traffic. Should municipalities be mandated to adopt "Complete Streets" features in all roadway projects, including repaving or maintenance? Yes No
