Assemblyman Brian Manktelow knows cancer doesn't discriminate—

and colorectal cancer in particular doesn't care how old you are or your ethnic background. In fact, research shows of all cancers, colorectal cancer will take the most lives of people under 50 by 2030 and be the primary killer among nonsmokers. This is why Assemblyman Brian Manktelow is fighting back and helping us with a law that increases coverage for colorectal cancer screenings (Chapter 739 of 2022).

Colorectal Cancer Facts :

- 🎗️ The second leading cause of cancer deaths among men and women combined in the U.S.
- 🎗️ 1 in 23 men and 1 in 26 women will be diagnosed with colorectal cancer – that rate can be drastically reduced with colonoscopy screenings.
- 🎗️ There are more than 1.5 million colorectal cancer survivors in the U.S.
