Mike Norris knows we need strong leadership now more than ever, and he's been working hard to bring our "Back to Basics" priorities to the halls of the state Capitol:

- ✓ **Restore Fiscal Responsibility in Albany:** Mike voted against the record high \$220.5 billion 2022 State Budget. Since first being elected, he has voted 34 times against more than \$35.6 billion in tax hikes!*
- ✓ **Invest in Our Local Infrastructure:** Mike Norris knows we should be dedicating resources in infrastructure to provide the vital services that we need on a daily basis. He has advocated for historic funding increases for our local roads, bridges, highways, culverts, and water and sewer lines in need of repairs. Mike has delivered from Lake Ontario to the Erie Canal and expanded the Discover Niagara Shuttle into Lockport.
- ✓ **Change the Way NYS Does Business:** Reforming the dysfunction and corruption in Albany has been a priority for Mike Norris since day one. The first bill he introduced was the State Contracts Sunlight Act (A.3784), and he's proud to have been part of bipartisan efforts to enact a similar provision known as the "Database of Deals" into law this year.

*2017-2022 legislative votes
