Honorable Carl Heastie  
Legislative Office Building, Room 932  
Albany, NY 12248

Dear Speaker Heastie:

I am pleased to submit to you the 2019 Annual Report of the Assembly Standing Committee on Local Governments.

Throughout the year, the Committee addressed many significant issues, including parkland alienations, as well as statewide issues, including the recruitment and retention of volunteer firefighters and volunteer ambulance workers and the oversight of Industrial Development Agencies (IDAs). In this report you will find descriptions of legislation and important issues considered by the Committee. Additionally, this report highlights goals of the Committee, which emphasize the ongoing need to support the municipalities of this State.

I share with you an appreciation for the important role local governments play in providing essential services to their residents and commend you for the support and leadership you have provided the Local Governments Committee in its pursuit to address issues facing New York's municipalities. With your assistance, the Committee will continue to focus on the needs of local governments.

Sincerely,

Fred W. Thiele, Jr., Chairman  
Assembly Standing Committee on  
Local Governments

## **I. INTRODUCTION**

The Assembly Standing Committee on Local Governments considers the legislative needs of New York State's local governments, including counties, cities, towns, villages, school districts, fire districts, and various other special districts and local agencies. The Committee monitors the needs of local governments and strives to develop legislative remedies to meet those needs. The Committee also explores new proposals and ideas that will enable local governments to better serve the citizens of New York State. The Committee endeavors to enact laws that will further improve local governments' abilities to address their unique problems. The Committee is also interested in assisting local governments by considering legislation that will provide flexibility in municipal finances and consider other legislative solutions to help local governments remain financially solvent.

The Committee considers legislation that proposes to amend the General Municipal, Municipal Home Rule, Local Finance, County, Town, Village, Volunteer Firefighters' Benefit, and Volunteer Ambulance Workers' Benefit Laws. Since the structure, powers and scope of local governments is broad, the Committee's concerns cover a wide range of issues. Home Rule legislation is also addressed. These bills deal with issues specific to a certain local government's jurisdiction and are intended to remedy a specific local concern. Through the use of home rule legislation to solve individual local needs, the Committee has helped resolve many unique situations and has enabled local governments all over the state to serve their citizens better.

## **II. MAJOR ISSUES AND LEGISLATION OF 2019**

### **A. LOCAL GOVERNMENT AID – ENACTED BUDGET**

The State Budget for the State Fiscal Year of 2019-2020 continues funding for local governments in the form of unrestricted aid and grants to help local governments achieve efficiencies and share municipal services.

#### **Aid and Incentives to Municipalities**

Aid and Incentives to Municipalities (AIM) funding is direct general purpose aid provided to towns, villages and cities. AIM funding for the State Fiscal Year 2019-2020 was decreased by \$59 million for towns and villages whose AIM award equaled 2% or less of total expenditures in 2018. The Budget authorized the State to intercept an amount equal to the prior AIM amount from county sales tax revenues for an annual remittance to the towns and villages within the county that will no longer receive an AIM award.

#### **Local Government Performance and Efficiency Program**

The 2019-2020 Budget contained funding to continue grant programs administered by the Department Of State to provide assistance and incentives for local governments to consolidate, dissolve, share services and find other efficiencies. The programs include: \$35 million for Citizens Reorganization Empowerment grants and Citizen Empowerment Tax Credits, and \$4 million for the Local Government Efficiency Grant Program.

#### **Tax Cap**

The 2019-2020 Budget contained provisions for the elimination of the property tax cap sunset, establishing a permanent 2% property tax cap for local governments. As a result, the annual growth of local property taxes will be limited to 2% or the rate of inflation, whichever is lower.

## **B. MUNICIPAL OFFICERS AND EMPLOYEES**

### **Residency Requirement Exemptions**

It can be difficult for municipalities to find people interested in holding public office who are also residents of the municipality, as is required by law. The Committee considers legislation that would provide flexibility in filling these offices through an exemption to the residency requirement. The following are the public officer residency exemptions granted in 2019:

**Town of Somers Court Attendant  
(A.3200 Byrne; Chapter 466 of the Laws of 2019)**

**Village of Airmont and Rockland County Building Inspector/Fire Inspector/Code Enforcement Officer  
(A.5955 Jaffee; Chapter 503 of the Laws of 2019)**

**Village of Riverside Clerk/Treasurer and Code Enforcement Officer  
(A.8222 Palmesano; Passed the Assembly)**

## **C. MUNICIPAL FINANCES**

**Electronic Open Auction  
(A.8336-A Thiele; Chapter 643 of the Laws of 2019)**

Currently, in New York State municipalities sell municipal bonds in a closed bidding format, where bidders are not aware of the amounts proposed by other bidders. This law would establish a two year pilot program authorizing municipalities that meet certain population and debt issuance thresholds to conduct electronic open auction public bond sales, where bids can be changed or modified after submission, in response to competing bids. The pilot program would help determine whether or not an open bidding format will decrease costs to municipalities.

### **Housing Affordability**

There is growing concern in many communities about maintaining local employment due to the absence or high cost of housing opportunities. This year the Committee took several actions to address affordable housing.

**Peconic Bay Community Housing Fund  
(A.4941-B Thiele; Veto Memo. 247)**

The unique demographics and economics of the towns of Southampton, Easthampton, Shelter Island, Southold and Riverhead, in Suffolk County (the Peconic Bay Region), is contributing to a housing shortage and lack of housing opportunities in the area. Local employers are having difficulty hiring and retaining employees because of high housing costs and lack of availability, local volunteer emergency services agencies are experiencing difficulty in recruitment and retention, and long-time residents are being forced to leave the area. This legislation would authorize each town within the Peconic Bay Region to establish a community housing fund. The established housing fund would be financed by a 0.5% supplemental real estate transfer tax,

which would be an addition to the existing 2% real estate transfer tax for the Peconic Bay Region Community Preservation Fund.

**Tompkins County Affordable Housing  
(A.8225 Lifton; Chapter 232 of the Laws of 2019)**

This law explicitly authorizes Tompkins County to contract with certain entities for the development, maintenance, and management of affordable housing and allows for additional expenditures to develop new housing projects in order to address the shortage of affordable housing.

**Veterans' Organization Fees**

Veterans' organizations are an important aspect of local communities, ensuring that veterans receive the benefits of programs that are offered to them for their service. Veterans' posts should not be placed in a position of having to increase dues, and potentially discourage some veterans from participating, in order to facilitate building construction and improvement. The following are legislation that would permit the board of supervisors of the following counties to waive certain fees associated with such projects:

**Counties of Suffolk and Nassau  
(A.7234 Thiele; Chapter 478 of the Laws of 2019)**

**Counties of Washington and Saratoga  
(A.8109 Woerner; Chapter 483 of the Laws of 2019)**

**County of Erie  
(A.8362 Burke; Chapter 436 of the Laws of 2019)**

**D. MUNICIPAL CORPORATIONS**

**IDA Uniform Tax Exemption Policy  
(A.1606 Hunter; Chapter 386 of the Laws of 2019)**

The current IDA uniform tax exemption policy does not require specific information about the environmental aspect of IDA projects. This law requires IDAs to consider the extent to which a proposed IDA project incorporates resource conservation, energy efficiency, green technologies, alternative and renewable energy measures, and certain environmental factors in its uniform tax exemption policy.

**Delivery of Financial Notices by IDAs  
(A.2947 Solages; Veto Memo. 244)**

IDAs have the ability to offer tax exemptions to incentivize economic development projects; however, they are not required to receive approval from local governments or school districts. This bill would require IDAs to send notifications of proposed financial incentives for a project, and any reasons for deviation from their uniform tax exemption policy, to affected local taxing jurisdictions by certified mail, return receipt requested. If the affected local taxing jurisdiction is

a school district, notifications would be required to be sent to the school board and the superintendent of the school district.

**Live Streaming IDA Meetings**  
**(A.3002 Solages; Chapter 185 of the Laws of 2019)**

Live streaming has become a valuable tool for governments to increase civic engagement, and allow individuals who are unable to be present at the meetings to have access to the information provided. Governments of all sizes have taken to streaming meetings as a way to increase transparency and accountability. This law requires IDAs to livestream, record, and post videos of meetings and public hearings on their website.

**Calculations of School Indebtedness**  
**(A.7062 McDonald; Veto Memo. 182)**

Small city school districts with a population of less than 125,000 are subject to different requirements than other school districts when calculating their debt limits, which can impact their ability to borrow or bond for capital projects. This legislation would authorize small city school districts to exclude anticipated building aid from their debt limit calculations, in the same manner as other independent, non-city school districts.

**Comptroller Oversight of Local Development Corporations (LDCs)**  
**(A.7476 Magnarelli; Chapter 710 of the Laws of 2019)**

Currently, the State Comptroller does not have the authority to directly audit local development corporations and other types of private organizations, even when they are controlled by local governments. This bill would expand the Comptroller's authorization to examine the financial affairs of every municipal corporation, district, IDA and fire company to also include any organization that is controlled by one or more municipal entities.

## **E. EMERGENCY SERVICES**

The Assembly has worked consistently to ensure the State's policies regarding volunteer firefighters and volunteer ambulance workers are sufficiently protective. We appreciate the diligence, dedication to service and efforts put forward by the thousands of New Yorkers who generously dedicate their time as volunteer firefighters and volunteer ambulance workers. This session, the Committee passed a variety of volunteer firefighter and volunteer ambulance workers legislation.

### **Firefighter Cancer Presumption Eligibility** **(A.5957-A Gunther; Chapter 738 of the Laws of 2019)**

There are a number of fire departments that have been unable to properly identify the eligibility of firefighters for enhanced cancer disability benefits due to the loss or absence of documented records. This legislation would authorize the Office of Fire Prevention and Control to promulgate rules and regulations regarding the acceptance of alternative documents to establish eligibility when other documentation is unavailable.

### **Length of Service Award Program (LOSAP)** **(A.7552 Thiele; Chapter 474 of the Laws of 2019)**

The Length of Service Award Programs (LOSAP) are pension-like programs intended to help recruit, retain and reward volunteer firefighters and volunteer ambulance workers for their service to the community. A defined benefit plan is a type of LOSAP that provides a specified payment amount to an eligible volunteer firefighter or ambulance worker in retirement, while a defined contribution plan sets aside a specific amount over time for an eligible volunteer firefighter or ambulance worker in retirement. The current maximum contribution for defined contribution plans has remained at \$700 per year since 2004 and has not changed to reflect the need to incentivize volunteers at organizations with LOSAP. This bill increases the maximum defined contribution of LOSAP for volunteer firefighters and volunteer ambulance workers from \$700 to \$1,200 per year of service.

### **III. PARKLAND ALIENATION LEGISLATION**

The issue of parkland alienation, or the conversion of parkland for non-park purposes, has been a great concern for the Committee. As a matter of public trust, it is required that any use of public parkland for non-parkland purposes must be authorized by the New York State Legislature.

As part of the Committee's ongoing effort to protect the public trust, as it relates to parkland, and in keeping with the Assembly's policy of preserving open space, the Committee strives to ensure that each proposed parkland alienation complies with alienation guidelines prior to being reported out of Committee.

Committee guidelines for authorizing parkland alienation include specifying the number of acres proposed for alienation and requiring that the fair market value of such lands be dedicated for the purchase of replacement parkland of equal to or greater than fair market value, or for capital improvements to existing parkland. The legislation must also include a legal description of the parkland proposed to be alienated, as well as language detailing any land proposed to be dedicated (if replacement land is proposed for the parkland). Finally, a home rule message from the municipality requesting alienation is required prior to the Committee acting on any parkland legislation.

#### **Town of Brookhaven**

**(A.3475 DeStefano; Chapter 300 of the Laws of 2019)**

This law authorizes the Town of Brookhaven, Suffolk County, to lease parklands to the Patchogue-Medford Library District for the establishment of a local library branch.

#### **Town of Hancock**

**(A.4748-A Crouch; Chapter 511 of the Laws of 2019)**

This law authorizes the Town of Hancock, Delaware County, to alienate lands for the continued operation of a public golf course.

#### **Town of Hempstead**

**(A.5210 Miller ML; Chapter 548 of the Laws of 2019)**

This law authorizes the Town of Hempstead, Nassau County, to alienate parklands Mott Development for the construction of planned residential structures.

#### **Town of Smithtown**

**(A.5716 Fitzpatrick; Chapter 326 of Laws of 2019)**

This law authorizes the Town of Smithtown, Suffolk County, to alienate and convey certain municipal parkland in the town of Smithtown to facilitate the placement and operation of a sewer pump station.

**Town of Webster**

**(A.6501 Johns; Chapter 369 of the Laws of 2019)**

This law authorizes the Town of Webster, Monroe County, to discontinue lands as parklands for the purpose of extending the Webster Central School District sports and recreational fields.

**Village of Tarrytown**

**(A.7134 Abinanti; Chapter 559 of Laws of 2019)**

This law authorizes the Village of Tarrytown, Westchester County, to discontinue lands and alienate parklands for the purpose of completing a land transfer.

**Town of Stony Point**

**(A.7610-A Schmitt; Chapter 639 of the Laws of 2019)**

This law authorizes the Town of Stony Point, Rockland County, to alienate parklands for the operation of a public golf course.

**Town of New Hartford**

**(A.7851-A Miller B; Chapter 371 of the Laws of 2019)**

This law authorizes the Town of New Hartford, Oneida County, to alienate park lands for the installation and operation of a cell tower base station facility.

**Town of Southampton**

**(A.7996-A Thiele; Veto Memo.169)**

This legislation would authorize the Town of Southampton, Suffolk County, for the installation of drainage pipes.

**Town of Brookhaven**

**(A.8099 Thiele; Chapter 568 of the Laws of 2019)**

This law authorizes the Town of Brookhaven, Suffolk County, to alienate parklands for the installation of drainage pipes.

**Town of East Hampton**

**(A.8100 Thiele; Chapter 609 of the Laws of 2019)**

This law authorizes the Town of East Hampton, Suffolk County, to alienate certain parklands for the establishment of a hospital emergency room.

**Town of Ithaca**

**(A.8235 Lifton; Chapter 289 of the Laws of 2019)**

This law authorizes the Town of Ithaca, Tompkins County, to alienate certain parklands for the purpose of expanding a child care building and installing, operating and maintaining a septic system.

## **IV. PUBLIC HEARINGS**

### **A. BUDGET IMPLEMENTATION HEARING**

The New York State Budget had an impact on a variety of local government policies and programs, including the Aid and Incentives to Municipalities (AIM) Program, which provides unrestricted State aid to cities, towns and villages, and the property tax cap. The final New York State 2019-20 Budget included a total of \$695 million for AIM, and included the Executive's proposal to decrease AIM by \$59 million for towns and villages. However, the final New York State 2019-20 Budget maintained funding for towns and villages by authorizing the State to intercept \$59 million from county sales tax revenue.

On February 11, 2019, the Committee, in conjunction with the Standing Committee on Cities, conducted a hearing in Albany to examine the implementation of the Executive's proposal for the \$59 million decrease in AIM funding that would impact approximately 90% of towns and villages and the implementation of the permanent tax cap. Testimony was presented by the New York State Association of Counties, the Association of Towns and many public representatives.

### **B. MUNICIPAL CREDIT UNION HEARING**

On May 20, 2019, the Committee, in conjunction with the Assembly Standing Committee on Banks, conducted a hearing in Albany, to examine municipal credit unions accepting State and municipal deposits and their impact on local governments.

### **C. RURAL BROADBAND HEARING**

On September 17, 2019, the Committee, in conjunction with the joint Commission on Rural Resources, conducted a hearing in Albany, to examine the status of rural broadband in New York State and to identify methods to encourage the expansion of broadband in rural areas of the State.

### **D. VETERANS' SERVICES AND PROGRAMS IN NEW YORK STATE**

Veterans' services and funding in New York State are provided by not-for-profits and a variety of governmental agencies at the federal, state, and local levels. On October 17, 2019, the Committee, in conjunction with the Standing Committees on Veterans' Affairs and Cities, and the Subcommittee on Women Veterans, conducted a hearing in Albany to examine the current coordination of State and local funding and services, as well as methods to maximize the effectiveness of such benefits, to ensure that veterans, as well as service providers, are aware of the full range of benefits available.

### **E. INSURANCE**

There are several methods by which local governments and school districts may provide health insurance benefits to their employees; including, but not limited to, purchasing a health insurance policy from a NYS-licensed insurance company, self-insuring, and joining with other local governments and school districts to form municipal health insurance cooperatives. In an effort to control health insurance costs, local governments and school districts may choose to

self-insure or form cooperatives rather than purchase a policy. On October 23, 2019, the Committee, in conjunction with the Standing Committee on Insurance, conducted a hearing in Albany that examined alternatives by which local governments and school districts may provide affordable health insurance for employees and the methods these entities can use to minimize risks while also ensuring adequate reserves, coverage, and consumer protections.

**F. INDUSTRIAL DEVELOPMENT AGENCIES (IDAs) AND LOCAL DEVELOPMENT CORPORATIONS (LDCs)**

At the local government level, economic development is frequently facilitated through IDAs, which are public benefit corporations created by the state, and LDCs, which are not-for-profit corporations, created by or for the local government. There are currently an estimated 109 IDAs and 279 LDCs located throughout the State. On November 22, 2019, the Committee, in conjunction with the Standing Committees on Corporations and Oversight, Analysis and Investigation, conducted a hearing in New York City that examined the role and the effectiveness of IDAs and LDCs, including issues related to oversight, transparency, and accountability.

## **V. OUTLOOK FOR 2020**

The Committee recognizes the difficult economic outlook that the municipalities and citizens of New York have faced and will continue to face in the year to come. The Committee will build on the successes of the 2019 legislative session and continue to find ways to achieve savings for local governments, as well as explore other ways to reduce the cost of government in New York State.

In addition, the Committee will take an active role in examining the immediate need for meaningful relief for our struggling municipalities. The rising costs of Medicaid, education, Early Intervention, correctional services, public safety, highway and transportation services, and social services (to name a few) must be addressed. The Committee will try to help lessen the burden placed on local governments.

The Committee will also continue to advocate for the fair and equitable distribution of local government aid. Local governments rely on a stable and predictable revenue stream from the State, which is also a critical aspect to forming balanced local budgets.

The Committee also plans to continue its examination into the role that industrial development agencies and other local economic development agencies play in New York State's economic development. The Committee is interested in ensuring that these local agencies are transparent and accountable, with records that are easy to obtain and to understand, that they are creating good jobs, and that they are providing a decent return on the taxpayer-funded investments being made. The Committee will continue to examine legislative options to address these concerns.

The Committee will also continue to address the needs of municipalities by examining home rule legislation in 2020 in order to ensure the enactment of home rule bills that provide communities with a remedy to their locally specific situations.

The Committee on looks forward to continuing to work with the Governor, the Senate, the State Comptroller, the Attorney General, and all local governments to improve the outlook for municipalities going forward.
