SUBJECT: Medicaid Program Efficacy and Sustainability

PURPOSE: To receive testimony on Medicaid program efficacy and sustainability.

New York City
250 Broadway, 19th Floor Hearing Room
October 26, 2021, 10:00 a.m.

ORAL TESTIMONY BY INVITATION ONLY

In 2011, the Medicaid Redesign Team (MRT) was established to reduce costs to the State Medicaid program. The resulting changes shifted almost all the remaining benefits and beneficiaries not already in managed care, into managed care plans. The Medicaid Global budget cap, also created in 2011, controls the overall Medicaid spending in the State budget. Since the implementation of the initial MRT actions, and budget actions in subsequent years, including MRT II, advocates have cited numerous ways these changes are affecting the Medicaid program’s ability to provide an adequate safety net.

Witnesses are invited to focus remarks on any or all of the following subjects:

1. The effect and appropriateness of the Medicaid global cap on the Medicaid program and individuals’ access to services.
2. Whether some Medicaid services or populations should be carved out of Medicaid managed care, and if so, which ones would benefit?
3. Whether increased reliance on Medicaid managed care has created new access barriers for Medicaid members, and if so, suggestions for reducing these barriers.
4. Whether New York could benefit from removing managed care organizations from Medicaid programs, like the model implemented in Connecticut and other states.
5. The effect of the changes to Medicaid coverage for various services enacted in 2011 and subsequent years, including the MRT II changes in 2020.
